

# ADRS instructions

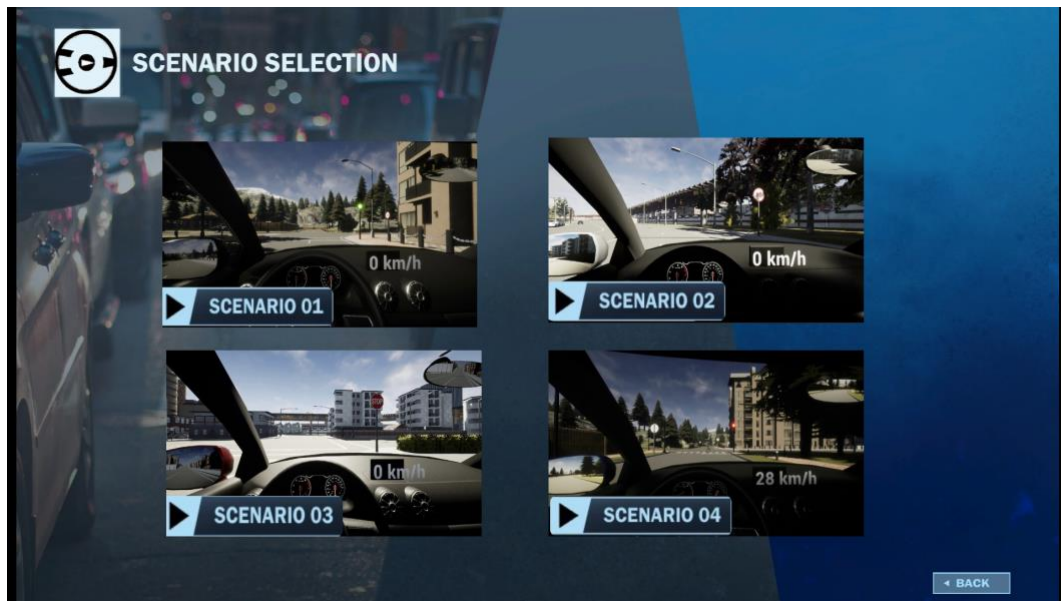

This is the main screen, shown when the program is executed.

- Click on SCENARIO SELECTION to select the map. The button will become light blue if selected correctly.
- Click on QUIT to close the program.

## SCENARIO SELECTION

- Click on one of the four scenarios to start playing.
- Click on BACK to go back to the previous screen.

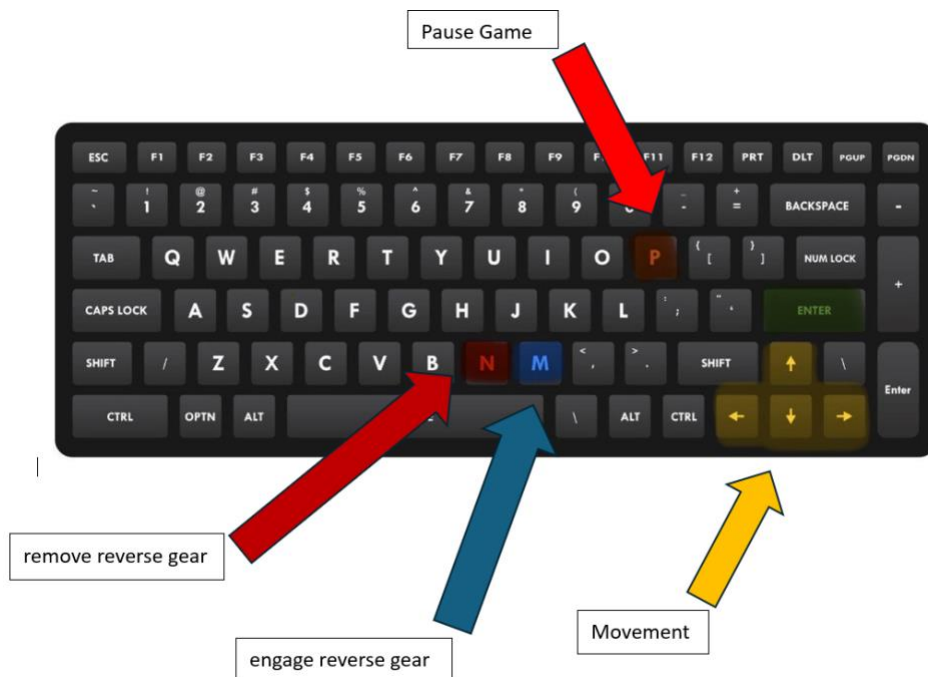

Wait until the scenario is loaded.

- Press ENTER to start the game.

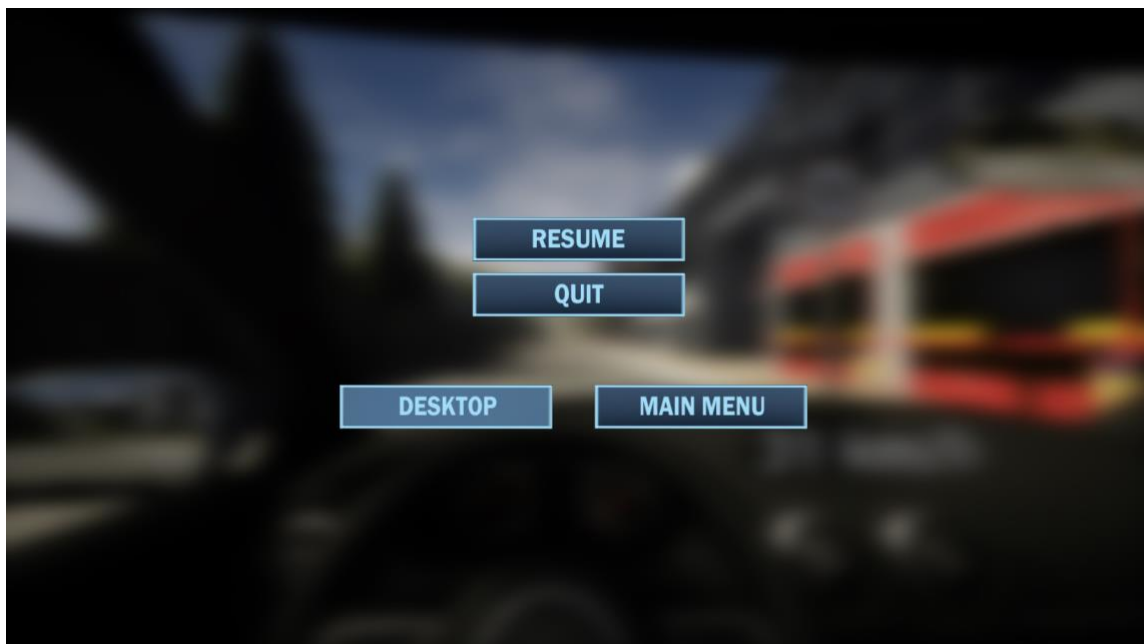

HOW TO PLAY:

- Use the ARROW KEYS to: accelerate (↑), decelerate (↓), turn left (←), and turn right (→).
- Use the P KEY to pause the game.
- Use the M KEY to engage the reverse gear: if you crash and get stuck, engage the reverse gear and press ↑ to go forward. If reverse gear is engaged, a green R will appear on the car dashboard.
- Use the N KEY to remove the reverse gear: to remove reverse gear stop the car, and press ↑ to go forward. The green R will disappear.

This is the screen appearing when the game is paused (pressing P).

- Click on RESUME to continue playing.
- Click on QUIT to close the game. In this way two more buttons will show up:
  - Click on DESKTOP to close the program.
  - Click on MAIN MENU to go back to this screen.

When the scenario is completed, or after 3 minutes, this screen will show up.

- Click on MAIN MENU to go back to the main screen and select the other scenarios.
